

ロシアに留学してみたくなった

タカト (4年・男子)

ロシアには閉鎖的なイメージがあったが、歴史的に建築物や衣装などに、数多くの他国の技術を取り込みながら、国を発展させてきたこと、また、様々な民族が共生していることを知り、百聞は一見に如かずとはまさにこのことであると強く感じた。また、ロシア学生との交流は貴重な経験となったうえ、もし時間があればロシアに留学してみたいという意欲が湧いた。

I would like to study in Russia

Takato (4th year, M)

Actually, I had an image that Russia was a closed country. However, it has totally changed because I learned that Russia has introduced other countries' technology into buildings or clothing for example, and that many ethnic groups are living together. Therefore, I think this case exactly proves the saying "*Seeing is believing*". Also, interacting with Russian students was a valuable experience for me and I would like to study in Russia if I have enough time. Thank you.
