

# Meiji University Graduate School of Global Governance

## Special Lectures - November 2022

- ◆ This workshop will teach effective methods of academic survival.
- ◆ This year, we will focus on two topics:
  - How to write, submit, and publish papers in international journals: the instructor will refer to journal selection criteria, efficient interaction with referees, and so forth.
  - How to successfully present your work at international conferences: the instructor will show some tips when presenting at international conferences. And it will be indicated what else should you do at international conferences besides listening or presenting at sessions.
- ◆ No specific assignments are given to students. However, it is more efficient for students to ask questions on the spot and actively participate in class.

*Focus and Goal*
