

明治大学外国人研究者招聘制度 報告書

< 招聘教授・研究員の情報 / Guest Professor・Guest Scholar >

氏 名	Brian Leacock
Name	
所属機関(派遣元)	Gustavson School of Business, University of Victoria
Affiliation (Home Organization)	
現在の職名	Associate Professor
Position	
研究期間	※2022/8/23～9/6
Period of Stay	
専攻	Cross Cultural Management
Field of Research	
ホスト教員氏名と所属学部研究科等	Prof Dr. Yoshie Yamashita (経営学部)
Name of host teacher and affiliation at Meiji University	

※ご家族の体調不良により早期帰国

< 外国人研究者からの報告 / Foreign Researcher Report >

①研究課題 / Research Theme
Intercultural Competency Development
②研究概要 / Outline of Research
Enhancing Intercultural Competencies: Pedagogical Innovation and Program Level Assessment - This research will explore how to increase intercultural competencies at the program level by: (1) conceptualizing intercultural effectiveness; (2) defining 'Global Mindset' within the context of assurance of learning at the school level; (3) measuring intercultural competencies (via pre/post assessments); and (4) utilizing a virtual platform for study abroad students that increases the intensity of the learning experience through reflection practice.
③招聘期間中の研究活動の実績 / The research results as Guest Professor・Guest
Although my visit was shortened from the original plan, I established a foundation for future collaboration. I had an excellent discussion with Professor Ushimaru, Professor Suzui, and Professor Yamashita regarding possible future initiatives between the two schools based on my expertise in the field of intercultural competencies. Through the years of my collaborating experiences with several partnership universities most of which were integrated into my research, I suggest collaborative work on creating a rubric for assessing competencies which in turn can be used for students' developing their portfolio. According to my research on the rubric for fostering students to become global resources, there must be certain features or characteristics to be considered in accordance with the global resources programs that Meiji University offers. We will continue working on this theme in the future. I would like to invite Meiji Keiei professors to related conferences in Canada to obtain the latest information and further discuss the research matter in the next future.
