2011 年後期に修了した、商学部独自の協定校から受入れた交換留学生に明治大学商学部での体験について書いてもらいました。

Even though it was only my second time participating in my seminar, the other students already invited me to spend some time with them. I was really happy that they welcomed me so warmly.

Besides learning so many things during the lessons, I was also able to spend my time with new friends and relax.

Of course there were some difficulties in the beginning; in my case I had especially problems with the vocabulary in my business classes. But only after a short while, I could understand more and more and that made me really happy.

One semester at Meiji University has been a great experience in my life. Next to the Japanese classes, the School of Commerce gave me also the chance to expand my knowledge according to my studies in Germany. I hope I can come back to Japan and meet all my friends I made at Meiji University again.

Being able to study at Meiji University was one of the best experiences in my life. It was of course the occasion to learn Japanese, but the most important thing I found here is the human experience. Meeting new friends from the whole world, teachers, campus mate was really an experience that I will never forget.

I really want to thank Meiji University for everything.
