

Science and Technology in Japan (July 6th - July 14th, 2023)
Lecturer Profile, Abstract of Lecture and Field Trip

Introduction to Japanese Culture and Society	
Date: July 7th	Lecturer: YAMAMOTO Yohei
Abstract of Lecture: This introductory class offers opportunities to help participants to start learning Japanese language and culture, focusing more on current cultural information and skills that certainly cannot be learned from books alone. The aims of this lecture are (1) to let participants acquire brief insights into the Japanese styles of communication, culture, and history, as well as (2) to adjust smoothly to the subsequent sessions of the STJ program.	
	YAMAMOTO Yohei Senior Assistant Professor Field: General and Cultural Studies Research Interests: Redefining discourses of U.S. literature from the perspective of environmental ethics; genealogy of Transcendentalism through American modernism
