① OHC is used as a web camera.

② Turn OHC on (power button turns blue).

③ Raise OHC arm or change position if necessary.

④ Start Zoom and sign in.

 ※ Please acquire Zoom account before starting class.

If video image is shown upside down, press this button

STEP2 Zoom Microphone & Camera Configuration

Audio settings

Camera settings

Mic: マイク配列 ～ (built-in PC microphone)
Speakers: MSD-701/5401 (classroom speakers)
Camera: TX-1/LX-1 (OHC)

※Built-in microphone range covers area around Classroom PC.

Part of blackboard captured by OHC

Blackboard image

Zoom screen image

- Even if moved to the furthest edge of the desk, OHC captures only a part of blackboard.
- Some parts of blackboard may reflect classroom lighting.

For classes which involve discussion with students etc.

Camera directed to students

Bluetooth 360° mic.

- OHC head can be directed to student seats.
- In case of discussion with multiple participants, built-in PC microphone may not pick up sound properly.
- To collect sound from multiple speakers, set a 360-degree Bluetooth microphone in the classroom center.
 It can be borrowed from Izumi Support Desk.
