

STEP1 Web camera setup

- ① On Control Panel press [Main Power] button.
- ② Check that Web camera is connected to Classroom PC via USB.
- ③ Position Web camera as convenient.
- ④ Start Zoom and sign in.

※ Please acquire Zoom account before starting class.

STEP2 Zoom microphone & camera configuration

Audio settings

Camera settings

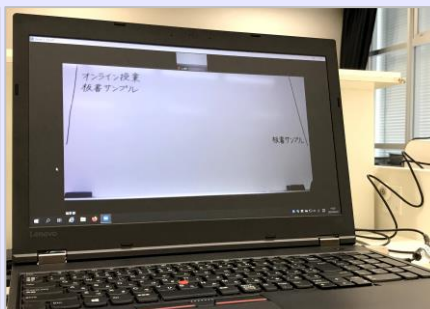

Mic: マイク配列 ~ (built-in PC microphone)
Speakers: MSD-701 (classroom speakers)
Camera: C922 Pro Stream webcam

※ Built-in microphone range covers area around Classroom PC.

Part of whiteboard captured by Web camera

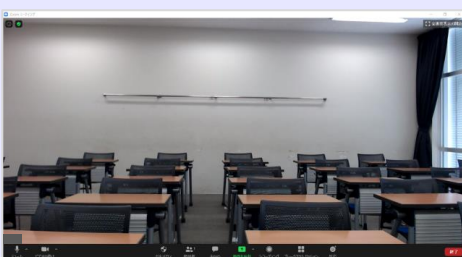

Whiteboard image

Zoom screen image

- Center part of whiteboard can be used in Zoom.
- It takes some time for webcam to focus on whiteboard.

For classes which involve discussion with students etc.

Camera directed to students

Bluetooth
360° mic.

- Web camera can be directed to student seats.
- In case of discussion with multiple participants, built-in PC microphone may not pick up sound properly.
- To collect sound from multiple speakers, set a 360-degree Bluetooth microphone in the classroom center.
It can be borrowed from Izumi Support Desk.
