Zoom Online Class Manual

STEP1 OHC (Document Camera) Setup

Turn right/left to zoom in/out
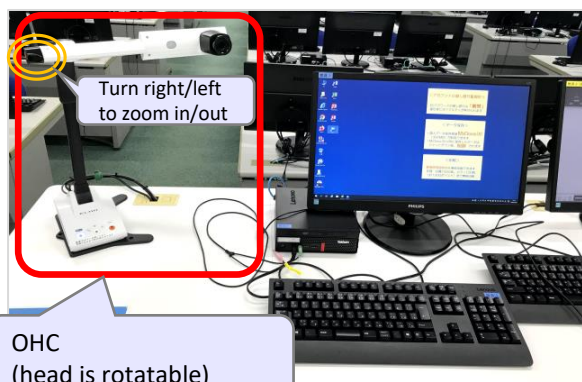

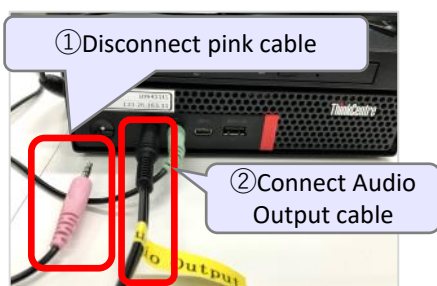

OHC (head is rotatable)

① On Control Panel press [Main Power] button.

② OHC is used as a web camera.

③ Turn OHC on (power button turns blue).

④ Raise OHC arm or change position if necessary.

If video image is shown upside down, press this button

STEP2 Switching Audio Cables
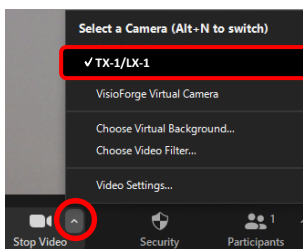

①Disconnect pink cable

②Connect Audio Output cable

① Disconnect pink cable from PC1 [Microphone] port.

② Connect cable with [Audio Output] label to PC1 [Microphone] port.

③ Start Zoom and sign in.

※ Please acquire Zoom account before starting class.

STEP3 Zoom Microphone & Camera Configuration

Audio settings

Camera settings

Mic: Realtek Audio (Teacher PC1 [Microphone] port)
Speakers: VAC-2000UHD (classroom speakers)
Camera: TX-1/LX-1 (OHC)

※**Always use classroom microphones during Zoom class.**

Sound from classroom microphones is sent to Zoom via Teacher PC1.

After class: switching cables back

※Please switch cables swapped in STEP2 back.

Part of whiteboard captured by OHC

Whiteboard image

Zoom screen image

- Even if moved to the furthest edge of the desk, OHC captures only a part of whiteboard.
- Some parts of whiteboard may reflect classroom lighting.
